Overview

ABSTRACT

According to the 2003 Kenya Demographic and Health Survey, about 9% of adult women and 5% of men are infected with HIV. Urban areas are disproportionately affected (10%) compared to rural areas (6%) but these averages mask the huge inequalities in HIV prevalence rates and also the growing vulnerability and disadvantage among the urban poor. Research by the African Population and Health Research Center (APHRC, 2002) has shown that the urban poor have the worst health indicators compared with the rural poor and other urban dwellers. The urban poor population is growing very rapidly so that unfavorable health outcomes among this sub-group will have adverse implications for the achievement of many of the Millennium Development Goals. We conducted a study on the economic, social, and health context of HIV/AIDS in informal urban settlements. To achieve this, population-based HIV testing was conducted annually in Korogocho and Viwandani slums in Nairobi City to estimate the prevalence and incidence of HIV/AIDS. APHRC has been conducting a demographic surveillance system (DSS) in these two slums since 2002. Data on HIV status was linked to individual data from the DSS to determine the social, health, economic, and demographic factors associated with HIV positive status. The project also assessed the impact of HIV/AIDS by following up a cohort of HIV positive and negative subjects for a period of two years. Being the first study of its nature in these communities, it was proposed to start with a study to assess acceptance rates for participation into the study and to estimate a baseline HIV prevalence rate. This feasibility phase took approximately 6-8 months and it informed the procedures for the main study. HIV prevalence among the urban poor was higher than the estimate of 10% for Nairobi, there were higher refusal rates in the urban slums, and that the impacts of HIV/AIDS was greater than those documented in the literature from rural studies. The findings had significance for the design of policies and programs for the urban poor and also for assessing the impact of HIV/AIDS.

UNITS OF ANALYSIS

Individuals

Scope

NOTES

The key objectives of this study were:

- i) to establish the feasibility of conducting HIV surveillance in an urban informal settlement;
- ii) to design and pilot an HIV serological survey which can be linked to behavioral surveillance data in two urban informal settlements which are part of the longitudinal Nairobi Urban Health and Demographic Surveillance System (NUHDSS);
- iii) to conduct research to understand sexual behavior in the context of HIV/AIDS among residents of urban informal settlements and identify risk factors for HIV infection.

KEYWORDS

HIV

Coverage

GEOGRAPHIC COVERAGE

The study was conducted in the two NUHDSS areas namely, Korogocho and Viwandani slums where APHRC runs a

longitudinal demographic surveillance system (DSS).

UNIVERSE

The study population consisted of all residents of Korogocho and Viwandani slums who met the eligibility criteria thus: residents are registered by the Nairobi Urban Demographic Surveillance System (NUHDSS); aged between 15 to 54 years for men and 15 to 49 years for females and were in relatively good health to respondent to the interview.

Sampling

Sampling Procedure

For the pilot phase of the project a sample of 800 was estimated to be adequate to answer the key question of prevalence of HIV and acceptability of community based testing of HIV in the slums. A computer assisted random sample of eligible individuals was selected. Following a successful pilot phase, an extra 3,380 sample was selected to try and characterize the HIV situation further including carrying out analyses to establish risk factors for HIV. This resulted into a total sample size of 4180 individuals to be drawn.

Response Rate

Total population interviewed = 6237 (3,876 women and 2,354 men).

Due to unforeseen circumstances, some the individuals who were initially sampled could not be interviewed for various reasons including death, and out migration. Therefore, a replacement random sample similar to those missed was drawn to make up the sample initially targeted.

Weighting

The data are not weighted.

Questionnaires

Overview

The questionnaire captured data on knowledge of HIV transmission and prevention, knowledge of HIV/AIDS related services and their availability in the community, behaviors associated with risks of HIV infection, attitudes and perceptions related to support and care of people living with AIDS.

More specifically, the themes covered by the questionnaire included :

1. Background
2. Knowledge about HIV/AIDS
3. Testing history
4. Marriage and Sexual activity
5. Practices
 - a. Male circumcision this section to be administered to males only
 - b. Questions on pubic hair removal practice
6. Referral

3. Testing history
4. Marriage and Sexual activity
5. Practices
 - a. Male circumcision this section to be administered to males only
 - b. Questions on pubic hair removal practice
6. Referral

Data Processing

Data Editing

Completed and edited questionnaires were returned to the office for data entry on a regular basis. About 10% of all questionnaires were manually re-checked by an office edit before data entry could be carried out.

Other Processing

The survey data was entered into a computer using SQL Server software at the APHRC offices. HIV status data were stored in secure password protected data base at KEMRI laboratories. Only authorized personnel had access to HIV status data.

V22	v203	Can people reduce chances of getting AIDS by having one sex partner who has no o	discrete	numeric	Can people reduce their chances of getting the AIDS virus by having just one sex partner who has no other partners?
V23	v204	Can people get AIDS from mosquito bites?	discrete	numeric	Can people get the AIDS virus from mosquito bites?
V24	v205	Can people reduce chances of getting AIDS by using condoms?	discrete	numeric	Can people reduce their chances of getting the AIDS virus by using a condom every time they have sex?
V25	v206	Can people get AIDS by sharing food with a person who has AIDS?	discrete	numeric	Can people get the AIDS virus by sharing food with a person who has AIDS?
V26	v207	Can people reduce the chances of getting AIDS by not having sex at all?	discrete	numeric	Can people reduce their chance of getting the AIDS virus by not having sex at all?
V27	v208	Can people get AIDS because of witchcraft or other supernatural means?	discrete	numeric	Can people get the AIDS virus because of witchcraft or other supernatural means?
V28	v209	Is it possible for a healthy-looking person to have AIDS?	discrete	numeric	Is it possible for a healthy-looking person to have the AIDS virus?
V29	v210	Do you know someone personally who has the virus that causes AIDS or someone who	discrete	numeric	Do you know someone personally who has the virus that causes AIDS or someone who died of AIDS?
V30	v211	Can the virus that causes AIDS be transmitted from a mother to her child?	discrete	numeric	Can the virus that causes AIDS be transmitted from a mother to her child?
V31	v212a	Can the virus be transmitted from a mother to her child during pregnancy?	discrete	numeric	Can the virus be transmitted from a mother to her child during pregnancy?
V32	v212b	Can the virus be transmitted from a mother to her child during delivery?	discrete	numeric	Can the virus be transmitted from a mother to her child during delivery?
V33	v212c	Can the virus be transmitted from a mother to her child during breastfeeding?	discrete	numeric	Can the virus be transmitted from a mother to her child during breastfeeding?
V34	v212d	Can the virus be transmitted from a mother to her child during conception?	discrete	numeric	Can the virus be transmitted from a mother to her child during conception?
V35	v213	Can an infected mother reduce the risk of infecting the baby by taking certain d	discrete	numeric	Can a mother who is infected with the AIDS virus reduce the risk of giving the virus to the baby by taking certain drugs during pregnancy?
V36	v214	Would you buy fresh vegetables from a vendor who has the AIDS virus?	discrete	numeric	Would you buy fresh vegetables from a vendor who has the AIDS virus?
V37	v215	If a family member got infected with AIDS Would you want it to remain a secret?	discrete	numeric	If a member of your family got infected with the virus that causes AIDS, would you want it to remain a secret or not?
V38	v216	If a relative became sick with AIDS Would you be willing to care for her/him in	discrete	numeric	If a relative of yours became sick with the virus that causes AIDS, would you be willing to care for her or him in your own home?
V39	v217	If a female teacher has AIDS, should she be allowed to continue teaching in scho	discrete	numeric	If a female teacher has the AIDS virus, should she be allowed to continue teaching in school?
V40	v301	Ever been tested of AIDS virus	discrete	numeric	I do not want to know the result, but have you ever been tested to see if you have the virus that causes AIDS?
V41	v302	When was the last time you were tested	discrete	numeric	How long ago was the last time that you were tested?
V42	v303	The last test, did you ask for it, offered or required	discrete	numeric	The last time you were tested, did you ask for the test, was it offered to you, or was it required?

ID	Name	Label	Type	Format	Question
V43	v304a	Where was the last test you took done	discrete	numeric	Where did you have the last test?
V44	v304b	Other test stations	discrete	character	
V45	v305	How was the testing done	discrete	numeric	How was testing done the last time you took a test, was it by giving blood, saliva or something else?
V46	v306	Did you get the test results	discrete	numeric	I do not want to know the result, but did you get the results of your last test?
V47	v307a	Main reason why you did not get test results	discrete	numeric	What is the main reason why you did not get the results?
V48	v307b	Other reason why results were not obtained	discrete	character	Other reason why results were not obtained
V49	v308	Do you know of a test center/station	discrete	numeric	Do you know where a person can get tested to find out if they have the virus that causes AIDS?
V50	v309a	A person can have a test in a govt hospital	discrete	numeric	A person can have a test in a govt hospital
V51	v309b	A person can have a test in a mission hospital	discrete	numeric	A person can have a test in a mission hospital
V52	v309c	A person can have a test from a VCT center	discrete	numeric	A person can have a test from a VCT center
V53	v309d	A peron can have a test from Private clinic	discrete	numeric	A peron can have a test from Private clinic
V54	v309e	A person can have a test from a CBO/NGO VCT	discrete	numeric	A person can have a test from a CBO/NGO VCT
V55	v309f	A person can have an HIV test from KEMRI	discrete	numeric	A person can have an HIV test from KEMRI
V56	v309go1	Other test centers	discrete	numeric	Other test centers
V57	v309go2	other places where HIV test can be done	discrete	character	other places where HIV test can be done
V58	v309go3	Other test center specified	discrete	character	Other test center specified
V59	v310	Is it good for people to know their HIV status	discrete	numeric	Do you think it is important for people to know if they have the virus that causes AIDS through testing?
V60	v311a	Good to test to reduce risks of getting infected	discrete	numeric	Good to test to reduce risks of getting infected
V61	v311b	Good to test to reduce risks of infecting others	discrete	numeric	Good to test to reduce risks of infecting others
V62	v311c	Good to test inorder to seek care	discrete	numeric	Good to test inorder to seek care
V63	v311d	Good to test to plan for future	discrete	numeric	Good to test to plan for future
V64	v311eo1	Other reason to have HIV test	discrete	numeric	Other reason to have HIV test
V65	v311eo2	Reason for HIV testing and knowing results: Others	discrete	numeric	Reason for HIV testing and knowing results: Others
V66	v312	Would you want to be tested of HIV/AIDS	discrete	numeric	Would you want to be tested/retested for the virus that causes AIDS and know the result of the test?
V67	v313a	ALready know my status	discrete	numeric	Already know my status
V68	v313b	Do not want to know my status	discrete	numeric	Do not want to know my status
