VERSION DESCRIPTION

v1.0: Edited, anonymous dataset for Data Documentation Working Group

PRODUCTION DATE

2011-06-23

NOTES

Version 1.1, November 2014. Anonymized with DOI and Recommended Citation added.

Overview

ABSTRACT

This theme investigated the linkages between migration, poverty, and health consequences at each stage of the life-course among people living in Nairobi's informal settlements. It specifically addressed objective 1.4 of the UPHD project as stated below:

- 1.1 Determine the characteristics of in- and out-migrants, their migration histories, reasons for migrating, and nature of links with origin communities;
- 1.2 Investigate how changing poverty and health circumstances influence and are influenced by intra-urban and urban-rural migrations;
- 1.3 Assess the motivations for migration (e.g. health-related reasons) and how this has an influence on estimates of mortality and fertility levels in informal settlements;
- 1.4 Validate the relevance of various measures of poverty in informal urban settlements.

KIND OF DATA

Sample survey data [ssd]

UNITS OF ANALYSIS

The unit of analysis is the household

Scope

NOTES

The scope of the Detailed Household Income and Expenditure Survey includes:

- **HOUSEHOLDS:** Background characteristics, Respondents' characteristics, Household information, Linkages with Origin Community, Other Assets and Income, Weekly Food Expenditure, Monthly Non-Food Expenditure, Annual Non-Food Expenditure, Inventory of Consumer Durable Goods, Subjective Poverty and Food Security

- **INDIVIDUAL HOUSEHOLD MEMBERS:** Background characteristics, Respondents' characteristics, Economic Activities, Salaried

and Wage Employment, Self Employment, Transfers and Social Assistance, Medical Expenses and Educational Expenses

Coverage

GEOGRAPHIC COVERAGE

Two informal settlements, Korogocho and Viwandani, in Nairobi City (the capital city) of Kenya.

UNIVERSE

The survey was done on a sample of 900 households from UPHD super Sample Households

Sampling

Sampling Procedure

A simple random sample of 900 households were included into the study, 450 households from each site (Korogicho and Viwandani). The sampling frame was a super sample from the DSS households sampled for the UPHD I program.

Response Rate

Out of 900 Households sampled, we had 662 successful interviews, 147 refusal and 91 interviews status unknown. This is a 73.5% (662/900) response rate

Weighting

Sample weights were not used

Questionnaires

Overview

The questionnaire used was one structured questionnaire named Detailed Household Income and Expenditure Form, The questionnaires were developed in English and were translated into Kiswahili. The questionnaire included the Following Sections:

- HOUSEHOLDS: Background characteristics, Respondents' characteristics, Household information, Linkages with Origin Community, Other Assets and Income, Weekly Food Expenditure, Monthly Non-Food Expenditure, Annual Non-Food Expenditure, Inventory of Consumer Durable Goods, Subjective Poverty and Food Security

-INDIVIDUAL HOUSEHOLD MEMBERS: Background characteristics, Respondents' characteristics, Economic Activities, Salaried and Wage Employment, Self Employment, Transfers and Social Assistance, Medical Expenses and Educational Expenses.

Data Collection

Data Collection Dates

Start	End	Cycle
2007-01-01	2010-04-30	N/A

Data Collection Mode

Face-to-face [f2f]

Questionnaires

The questionnaire used was one structured questionnaire named Detailed Household Income and Expenditure Form, The questionnaires were developed in English and were translated into Kiswahili. The questionnaire included the Following Sections:

- HOUSEHOLDS: Background characteristics, Respondents' characteristics, Household information, Linkages with Origin Community, Other Assets and Income, Weekly Food Expenditure, Monthly Non-Food Expenditure, Annual Non-Food Expenditure, Inventory of Consumer Durable Goods, Subjective Poverty and Food Security

- INDIVIDUAL HOUSEHOLD MEMBERS: Background characteristics, Respondents' characteristics, Economic Activities, Salaried and Wage Employment, Self Employment, Transfers and Social Assistance, Medical Expenses and Educational Expenses.

Data Collectors

Name	Abbreviation	Affiliation
African Population & Health Research Center	APHRC	

Supervision

Interviewing teams in the two sites of study comprised of:

- Korogocho: 1 field supervisor, 2 editing team leaders, 1 data quality control team leader, 2 data quality control officers, 12 interviewers

- Viwandani: 1 field supervisor, 2 editing team leaders, 1 data quality control team leader, 3 data quality control officers, 17 interviewers

The roles of the various members of the interviewing teams were:

- Interviewer: Conducting face-to-face paper-based interviews in assigned zone within the study site

- Data Quality Control Officer: Performing random spot-checks on 10% of the questionnaires and reporting inconsistencies to the Data Quality Control Team Leader for harmonization

- Data Quality Control Team Leader: Harmonizing inconsistencies within questionnaires and performing a random spot-check on 10% of the 10% questionnaires that have already undergone spot-checking

- Editing Team Leader: Editing 100% of questionnaires from randomly selected field workers and documenting issues emerging during data collection

- Field supervisor: Responsible for overseeing general operations, resolving issues that cannot be harmonized by data quality control and ensuring that field work progressed on schedule. They also

conducted sit-in interviews along with Data Quality Control Team Leader

The Field Co-ordinator, Research Officer and/or Project Managers visited the field and field teams regularly to monitor and review progress and support field operations.

Data Processing

Data Editing

Data editing took place at a number of stages throughout the processing, including:

- a) Office editing and coding
- b) During data entry
- c) Structure checking and completeness
- d) Secondary editing

Detailed documentation of the editing of data can be found in the "Standard Procedures Manual" document provided as an external resource.

Some corrections are made automatically by the program (80%) and the rest by visual control of the questionnaire (20%).

Other Processing

Data entry was performed manually at APHRC's headquarters on desktop computers and was done using an in-house built system with a Microsoft Access Program.

Data were processed the following steps:

- 1) Questionnaire reception
- 2) Office editing and coding

- 3) Data entry
- 4) Structure and completeness checking
- 7) Back up of raw data
- 8) Export to STATA 10 in 12 files
- 9) Recoding of variables needed for analysis
- 10) Structural checking of STATA 12 files
- 11) Data quality tabulations
- 12) Production of analysis tabulations

Data Appraisal

Estimates of Sampling Error

No estimation of sampling error was done.

File Description

Variable List

Household Information

Content	The file contains household data related to sections 1, 2, 4 and 8 of the detailed household income and expenditure survey questionnaire on information on background, respondents details, linkages with origin community, and other assets and income. The file was generated using a Stata program named "HH_INFO.do" available in the external resources

 Decimals: 0
 Range: 1-9

Valid cases: 809
 Invalid: 0

Pre question

1.7 CONSENT INFORMATION

Hello, my name is _____ and I work with the African Population and Health Research Centre. As you may be aware, we visit households in this community every four months to collect information on health and other related issues so that we can understand the health and well-being of members of this community. In this study, we specifically would like to know in detail individual & household income & expenditure on food and non-food items for specified durations. All the responses you provide are confidential and will be used for the purposes of this study only. This interview is not expected to cause you any harm and if you feel uncomfortable with certain questions you can choose not to answer. However, we hope that you will participate in this survey since your views are important. This interview will take about 60 minutes of your time.

Literal question

1.8 Do you accept to take part in this interview?

Post question

[1=YES; 2=NO]

Interviewer instructions

[IF 2; SKIP TO 11.15]

Respondent the head of the household? (h0201)

File: Household Information
