

Code-sheet and merging information

1. Variable ***visit*** with codes define as

-1 = Baseline survey

0 = Pre-birth survey

1 = Post-birth 1

2 = Post-birth 2

3 = Post-birth 3

4 = Post-birth 4

2. Variable ***postbirth3visits*** for the pre-birth and post-birth3 data-sets which may have more than one survey visits.

Merging: The merging variables are therefore, ***moid visit and postbirth3visits***
