Good morning/afternoon/evening sir/madam. My name is (NAME OF FIELD INTERVIEWER). I work with the African Population and Health Research Center (APHRC) which carries out research on Education, Health, Urbanization, and Well being. The APHRC works in Kenya and in the sub-Saharan Africa region. Under the Education theme, we visit primary schools to collect data on school infrastructure, enrolment, staffing, teaching, learning and management. This time round, we are visiting primary schools in Kenya and Uganda in order to collect these data. Your school [NAME OF SCHOOL] has been randomly selected and we are here today to ask for your consent in this respect. The results of this research may be disseminated to schools participating in the study and at national level in the two countries (Kenya and Uganda) order to inform education policy.

Your responses will be held with utmost confidentiality and will only be available to members of the research team. The study will not cause any disadvantage to you, or your school. If you accept that they participate in this research, you will be doing so professionally and voluntarily and there will not be any monetary returns. Any benefits of the research will be policy oriented intended to improve the teaching and learning processes in schools in the two countries.
